**WAHL® KM2 Clipper**

German engineered 2-speed professional clipper. Uses all standard detachable blades. Runs at 3,000 spm (low) - 3,500 spm (high). Sealed motor is maintenance free. Comfortable ergonomic design. Longer blade stroke for faster cutting. Recessed switch avoids unintentional shut-offs. Intake filter and specially designed rubber gasket covering the switch prevents hair from entering the clipper housing. Specially designed gasket behind the blade prevents hair from getting trapped while clipping. Includes #10 WAHL Ultimate Competition Series blade, cleaning brush, tube oil and instructions.
