

Oster® Cryogen-X™ AgION and Elite Cryogen-X™ AgION Blades

In addition to innovative heat reducing technology and legendary sharp cutting performance to provide the user with the coolest and sharpest blade possible, AgION blades have built in antimicrobial protection. AgION Antimicrobial Protection is proven to be very effective in preventing the growth of a broad range of bacteria, mold and mildew. Elite Cryogen-X™ AgION blades are even further optimized with a titanium coating increasing its overall surface hardness, making them the longest wear resistance blade offered by Oster®.

andis ULTRAEDGE™

Andis® UltraEdge™ professional grooming blades offer the latest technological advancements available in extending blade life and maintaining blades at optimum performance. Andis® uses an exclusive carburized hardening process. They are finished with special chrome to resist rust and enhance performance. New blister packaging allows for easier display and resale. Blades fit all Andis® AG, MBG and Oster® A-5® models.

AS LOW AS \$18.99

andis CERAMICEDGE™

✓ Long-Lasting Edge
Andis uses advanced technology to make their ceramic cutters more durable than other ceramics. CeramicEdge blades stay up to 75% cooler than traditional steel blades. Certified Zirconium Oxide Ceramic improves blade durability for longer lasting blades and break resistance when changing blades. These professional grooming blades fit all Andis AG, AGC, BGC, MBG and Oster 76, 111, and A-5 Models.
