## Oster® Convex2™ Shears

✓ **Exceptional all-around performance**

The Convex2™ shears represent the next generation in convex edge shears, the Japanese-style blades that have long been the standard in premium edge design. Starting with all the benefits of a high-quality convex edge shear - smooth cutting performance and whisper quiet action - this revolutionary new shear is incised with exclusive microscopic serrations that hold the hair in place for precise cutting action on every stroke and added blade durability and strength.
