

# SAFETY DATA SHEET CLIPPER OIL ODOR FREE

### Section 1. Identification

| GHS product identifier                  | : CLIPPER OIL ODOR FREE  |
|---|--|
| Other means of<br>identification        | : Not available.   |
| Product type                            | : Liquid   |
| Product code                            | : 7803600000   |
| MSDS #                                  | : 2132   |
| Relevant identified uses of the         | ne substance or mixture and uses advised against   |
| Product use: For professional use only. | : Industrial applications: Lubricants; oil.  |
| Supplier's details                      | : Chemtool Incorporated<br>801 West Rockton Road<br>Rockton, IL 61072 U.S.A.<br>Tel: 815.957.4140<br>Fax: 815.624.0292 |
| Emergency telephone<br>number           | : INFOTRAC<br>U.S. and Canada - 800.535.5053<br>Outside the U.S. and Canada - +1 352.323.3500                          |

### Section 2. Hazards identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Hazard pictograms                          | : Not applicable.  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |

### Section 2. Hazards identification

Hazards not otherwise classified

: None known.

#### Section 3. Composition/information on ingredients

| Substance/mixture | : Substance      |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

#### CAS number/other identifiers

| Ingredient name  | %      | CAS number |
|--|--------|------------|
| Distillates (petroleum), hydrotreated light paraffinic | 60-100 | 64742-55-8 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### **Description of necessary first aid measures**

| Eye contact                 | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention if irritation<br/>occurs.</li> </ul>   |
|-----------------------------|---|
| Inhalation                  | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| Skin contact                | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion                   | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Most important symptoms/    | effects, acute and delayed  |
| Potential acute health effe | ects  |
| Eye contact                 | : No known significant effects or critical hazards.   |
| Inhalation                  | : No known significant effects or critical hazards.   |
| Skin contact                | : No known significant effects or critical hazards.   |
| Ingestion                   | : No known significant effects or critical hazards.   |
| Over-exposure signs/sym     | <u>ptoms</u>  |
| Eye contact                 | : No specific data.   |
| Inhalation                  | : No specific data.   |
| Skin contact                | : No specific data.   |
| Ingestion                   | : No specific data.   |
| Indication of immediate me  | dical attention and special treatment needed, if necessary  |
| Notes to physician          | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments         | : No specific treatment.  |
| Protection of first-aiders  | : No action shall be taken involving any personal risk or without suitable training.  |
| See toxicological informati | on (Section 11)   |

### Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising<br>from the chemical  | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : No specific data.   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures : No action shall be taken involving any personal risk or without suitable training. For non-emergency Evacuate surrounding areas. Keep unnecessary and unprotected personnel from personnel entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. **For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel". : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains **Environmental precautions** and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Methods and materials for containment and cleaning up Small spill : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, Large spill water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

### Section 7. Handling and storage

| Conditions for safe storage, | : Store in accordance with local regulations. Store in original container protected from  |
|------------------------------|---|
| including any                | direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials |
| incompatibilities            | (see Section 10) and food and drink. Keep container tightly closed and sealed until       |
|                              | ready for use. Containers that have been opened must be carefully resealed and kept       |
|                              | upright to prevent leakage. Do not store in unlabeled containers. Use appropriate         |
|                              | containment to avoid environmental contamination.   |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

**Occupational exposure limits** 

| Ingredient name                  |  | Exposure limits  |
|----------------------------------|--|--|
| Distillates (petroleum), hydr    | otreated light paraffinic                                  | ACGIH TLV (United States, 4/2014).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable<br>fraction<br>NIOSH REL (United States, 10/2013).<br>TWA: 5 mg/m <sup>3</sup> 10 hours. Form: Mist<br>STEL: 10 mg/m <sup>3</sup> 15 minutes. Form: Mist<br>OSHA PEL (United States, 2/2013).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. |
| Appropriate engineering controls | : Good general ventilation sl<br>contaminants.             | hould be sufficient to control worker exposure to airborne   |
| Environmental exposure controls  | they comply with the requir<br>cases, fume scrubbers, filt | or work process equipment should be checked to ensure<br>rements of environmental protection legislation. In some<br>ers or engineering modifications to the process equipment<br>e emissions to acceptable levels.  |
| Individual protection measu      | <u>ures</u>  |  |
| Hygiene measures                 | eating, smoking and using<br>Appropriate techniques sho    | d face thoroughly after handling chemical products, before<br>the lavatory and at the end of the working period.<br>ould be used to remove potentially contaminated clothing.<br>ng before reusing. Ensure that eyewash stations and safety<br>vorkstation location.   |
| Eye/face protection              | assessment indicates this gases or dusts. If contact       | with an approved standard should be used when a risk<br>is necessary to avoid exposure to liquid splashes, mists,<br>is possible, the following protection should be worn, unless<br>a higher degree of protection: safety glasses with side-  |
| Skin protection                  |  |  |
| Hand protection                  |  | vious gloves complying with an approved standard should be<br>adling chemical products if a risk assessment indicates this is  |
| Body protection                  |  | nent for the body should be selected based on the task being volved and should be approved by a specialist before  |
| Other skin protection            |  | any additional skin protection measures should be selected<br>erformed and the risks involved and should be approved by a<br>this product.   |
| Respiratory protection           | standard if a risk assessme                                | urifying or air-fed respirator complying with an approved<br>ent indicates this is necessary. Respirator selection must be<br>ated exposure levels, the hazards of the product and the safe<br>ed respirator.  |

### Section 9. Physical and chemical properties

#### **Appearance**

| Physical state                               | : Liquid [Clear viscous liquid.]   |
|--|--|
| Color  | : Colorless  |
| Odor   | : Mild. Petroleum oil  |
| Odor threshold                               | : Not available.   |
| рН   | : Not applicable.  |
| Melting point                                | : Not available.   |
| Boiling point                                | : Not available.   |
| Flash point                                  | : Open cup: 176 to 232°C (348.8 to 449.6°F) [Cleveland.]   |
| Evaporation rate                             | : Not available.   |
| Flammability (solid, gas)                    | : Flammable in the presence of the following materials or conditions: open flames, sparks and static discharge and heat. |
| Lower and upper explosive (flammable) limits | : Not available.   |
| Vapor pressure                               | : Not available.   |
| Vapor density                                | : Not available.   |
| Relative density                             | : 0.85 to 0.86 g/cm <sup>3</sup>   |
| Solubility                                   | : Insoluble in the following materials: cold water.  |
| Partition coefficient: n-<br>octanol/water   | : Not available.   |
| Auto-ignition temperature                    | : Not available.   |
| Decomposition temperature                    | : Not available.   |
| Viscosity                                    | : Not available.   |
|  |  |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

### Section 11. Toxicological information

#### Information on toxicological effects

| Product/ingredient name                                   | Result                              | Species         | Dose                   | Exposure |
|---|-------------------------------------|-----------------|------------------------|----------|
| Distillates (petroleum),<br>hydrotreated light paraffinic | LC50 Inhalation Dusts and mists     | Rat             | 3900 mg/m <sup>3</sup> | 4 hours  |
| Conclusion/Summary  | : No known significant effects or o | ritical hazards | · ·                    |          |
| Irritation/Corrosion                                      |                                     |                 |                        |          |
| Conclusion/Summary  |                                     |                 |                        |          |
| Skin  | : No known significant effects or o | ritical hazards | i.                     |          |
| Eyes  | : No known significant effects or o | ritical hazards | i.                     |          |

Validated on 6/22/2015.

## Section 11. Toxicological information

#### Numerical measures of toxicity

Acute toxicity estimates

Not available.

### Section 12. Ecological information

#### **Toxicity**

**Conclusion/Summary** : There are no data available on the mixture itself.

#### Persistence and degradability

: Expected to be biodegradable.

| Product/ingredient name | Aquatic half-life | Photolysis | Biodegradability |
|-------------------------|-------------------|------------|------------------|
| CLIPPER OIL ODOR FREE   | -                 | -          | Readily          |

#### **Bioaccumulative potential**

**Conclusion/Summary** 

Not available.

#### Mobility in soil

| Soil/water partition coefficient (Koc) | : Not available.                                    |
|--|---|
| Other adverse effects                  | : No known significant effects or critical hazards. |

#### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

| <u>Canada</u>                  |  |
| WHMIS (Canada)                 | : Not controlled under WHMIS (Canada).   |
| Canadian lists                 |  |
| Canadian NPRI                  | : None of the components are listed.     |
| CEPA Toxic substances          | : None of the components are listed.     |
| Canada inventory; DSL/<br>NDSL | : All components are listed or exempted. |

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulations.

### Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks Although HMIS® ratings are not required on SDSs under 29 CFR 1910. 1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.
